

Dear Dr. Noble,

Thank you for the years of ortho treatment. My smile has increased considerably and I'm satisfied that it matches how I really feel. You were a great orthodontist especially when dealing with my quiet self, and constant "white elastics" despite much persuasion. I hope you keep making people smile and laugh around you and that you keep playing music (perhaps one titled "Amanda" again)

Good luck in the future and maybe one day I will bump into you and you won't remember me, but I will still smile.
